RBI Exam English language Sample Question Papers

Direction(1-6): Read the following paragraph carefully and answer the following questions given below it. Certain words have been printed in bold to help you locate them while answering some of the questions.

During the reign of king Veer, there lived a wise magistrate. Haripant's verdict were always just and people from all over the vast kingdom came to him in order to settle disputes. In the city where Haripant lived, there was greedy ghee merchant named Niranjan. He always kept twenty barrels of ghee. Of these, fifteen would contain good quality ghee and the remaining would mix the two and sell it. This went on for a long time, till finally the people fed up of being cheated, complained to Haripant.

Haripant had the ghee examined and found it to be adulterated. He gave Nirangan a choice of punishment—drink the five barrels of adulterated ghee from his shop, or receive a hundred lashings, or pay a thousand gold coins to the treasury. Losing a thousand coins was too much and a hundred lashing too painful. So he decided to drink the five barrels of ghee. Though Niranjan sold adulterated goods in his shop, he made sure his own food was of the best quality. So after drinking one barrel of ghee he began to feel sick. By the second barrel, he was vomiting. At this point he decided to opt for the lashings instead. But he was pampered and his body was unused to any harsh treatment. After ten lashes, he

started trembling and by twenty he was giddy. 'Stop!' he screamed. 'I will pay the thousand gold coins!' And he handed them over.
